garner the recognition these young men deserved for the sacrifices they made responding to this unfortunate disaster.

Mr. Speaker, I ask my colleagues to stand with me and join me for a moment of silence to honor the life and legacy of Nolan Watson, a hero who deserves our respect and who will be sorely missed.

$\begin{array}{c} \text{HOW TO BECOME A BETTER AND} \\ \text{STRONGER NATION} \end{array}$

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, I rise today to spotlight the statement of Lieutenant General Jay Silveria, the superintendent of the United States Air Force Academy, made after an incident involving racial slurs.

His speech made three clear points:

First, the appropriate response for horrible language and horrible ideas is a better idea.

Second, we currently have the opportunity to think about our defining values as Americans and to stand firm on our values.

Lastly, if you cannot treat someone with dignity and respect, then you need to get out.

Lieutenant General Silveria is a role model. I stand here to share these words because we in Washington need to hear and heed them. We must think about who we are as a nation and we must stand firm in our values. After all, we are Americans. Our values have always defined us.

So we simply cannot accept the words and actions of those who do not treat others with dignity and respect. We must respond to horrible language and hateful ideas with better ideas and a strong resolve to rise above hate. This is how we become a better and a stronger nation.

DESIGNATING MANUFACTURING DAY

(Mr. MARSHALL asked and was given permission to address the House for 1 minute.)

Mr. MARSHALL. Mr. Speaker, I rise today in support designating the first Friday in October as Manufacturing Dav.

Across our country, manufacturing provides over 12 million jobs and contributes over \$2 trillion to our economy. In Kansas, manufacturing accounts for nearly one-fifth of the State's economy and directly employs over 160,000 people.

The industry has a long and successful history in Kansas, and this Friday, I plan to help a small manufacturing company, Superior Boiler Works in Hutchinson, Kansas, celebrate 100 years of being in business, as part of our Manufacturing Day tour.

These small businesses have a substantial impact on local communities by providing good-paying jobs in places like Atwood, Sharon Springs, and Hutchinson, Kansas.

I look forward to celebrating National Manufacturing Day in Kansas this Friday and ask my colleagues to support designating the first Friday in October as National Manufacturing Day.

COURAGE TO ACT ON GUN LEGISLATION

(Mr. QUIGLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. QUIGLEY. Mr. Speaker, 4 years ago, 26 small children and teachers were massacred at Sandy Hook Elementary, and Congress lacked the courage to act. Two years ago, the Emanuel 9 were murdered by a White supremacist, and Congress did nothing. Last year, in a hate crime against the LGBT community, 49 people were killed in the Pulse nightclub terrorist attack, and Congress did nothing.

This week, at least 59 people have been killed and over 500 injured in the worst mass shooting in modern American history. Will Congress yet again lack the courage to act?

Will we prioritize thoughts and prayers at the expense of substantive action that saves lives? Will we hide behind the "it's too early to talk about gun violence" excuse? If so, when is the right time? A week from now? a month? a year? or perhaps after the next mass shooting?

For the over 1,500 mass shooting victims since Sandy Hook, the right time to talk about gun violence has tragically come and gone, but we can and must turn the page today. Let us not continue dishonoring their memories because of political pressure and fear to do what is right.

CELEBRATE NATIONAL MANUFACTURING DAY

(Mr. BILIRAKIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BILIRAKIS. Mr. Speaker, this Friday we celebrate National Manufacturing Day. The economist, Peter Navarro, recently said that manufacturing is the seed for all other jobs in the United States. I couldn't agree more. Manufacturers are the pioneers, the innovators, and the people who bring ideas to life.

With over 20 percent of Florida's manufacturers located in the Tampa Bay area, I am proud of the fact that there are more than 2,500 manufacturers in and around my district. Their work couldn't be more essential to our community and our country.

It is our job to support manufacturing and to create a business environment in which they can thrive. This means passing meaningful tax reform, eliminating regulations that stifle the industry, and encouraging STEM education, which is needed for workforce development.

I look forward to continuing to work on these important issues as we embrace the full potential of what it means to make it in America: Made in America.

RYAN-McCONNELL REPUBLICAN TAX PLAN

(Mr. KILDEE asked and was given permission to address the House for 1 minute.)

Mr. KILDEE. Mr. Speaker, middle class families should be the focus of tax relief, not billionaires, not the wealthiest Americans. Unfortunately, the Ryan-McConnell tax plan fails that basic test.

Independent analysis shows that the Republican plan would actually raise taxes on many middle class families, giving billionaires, the top 1 percent, the biggest breaks. The nonpartisan Tax Policy Center says that middle class families could actually pay an increase of \$1,290 a year. Even worse, the families I represent would be asked to foot the bill for a big, massive giveaway to the rich.

Under the Republican plan, the wealthiest families, 5,400 families that are the superwealthy in this country, would get a \$270 billion break through the repeal of the estate tax—100 families in my home State of Michigan, the DeVos family, certainly the Trump family. This is not representative of the values of the American people.

Just saying that the people at the top won't benefit doesn't make it true. Read the bill. Look at these analyses. This is a giveaway to the wealthiest Americans, and it is wrong.

ENCOURAGE SENATE TO VOTE ON PAIN-CAPABLE UNBORN CHILD PROTECTION ACT SOON

(Mr. LABRADOR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LABRADOR. Mr. Speaker, I rise today in support of H.R. 36, the Pain-Capable Unborn Child Protection Act. This legislation passed the House yesterday, and I encourage the Senate to vote on it soon.

I am strongly pro-life. The Federal Government's most important responsibility is protecting human life, including the lives of the unborn. Additionally, we have a moral obligation to minimize pain and suffering, especially for the most innocent among us.

The United States is one of only seven countries that allow abortions after 20 weeks. At the 20-week mark, anesthesia is used in fetal surgeries for patients still in utero. For premature babies born at this stage, special care is given to reduce their pain.

H.R. 36 will prohibit abortions after the 20-week mark precisely because of
